MAYOR'S INAUGURAL ADDRESS

Members of Council:—

May I extend to each and all of you my sincere congratulations upon your election as the official representatives of the people of Kingston to sit in this council and conduct its affairs according to the "Oath of Office" to which you all have subscribed.

It is my pleasure to welcome you and at the same time to direct your attention to problems of the year that lie ahead. Each of you has a duty to perform and but one voice in this council. It is my purpose to hear that voice and by treating all alike hope to maintain a spirit of harmony and co-operation throughout the year. To attain that end may I suggest that you read the rules of order once again and do your utmost to abide by them while they are still in force.

Our first concern as Canadians and as Britishers is to give every assistance possible where required to win the war in which our country is engaged. Every citizen by now should be thoroughly awakened to the dangers which we are facing and we should be primarily war conscious to render aid that will bring complete victory, which is our answer to what are our war aims. There can be no real peace until this is achieved.

We are aware of the forces of His Majesty in our midst. We may have been too prone to accept these forces as all that is required. While the Department of National Defence may be considered to be responsible for our protection in war time, the Department of the Attorney General for Ontario has issued instructions for the formation of a Civil Defence Committee for each municipality. Last year preparations for an organization of this nature were made, the nucleus of which still exists. To be prepared for emergencies is to be desired. This matter will be placed before the Finance Committee for consideration.

A voluntary civil organization known as the Kingston War Services Committee formed for the purpose of co-ordinating all groups performing services for the forces is operating efficiently in the city. Two rooms and the vestibule in the Welfare Department are being used for a portion of this work.

The Canadian Corps Association has formed a Canadian Women's Service Force in Kingston. This is a Dominion-wide organization. at present not recognized by the Department of National Defence, neither is it prohibited or disapproved by the government. It is hoped their usefulness will be demonstrated for governmental recognition.

The corporation under the Parks Committee is operating a recreation centre for the troops in the Market House. This program includes entertainments, dancing and concerts. A canteen is installed for refreshment purposes, all of which is approved by Kingston War Services.

Amicable relations exist between the military and civic authorities and the citizens of Kingston. It is expected that this state of affairs will continue to be maintained and the citizens are asked to keep up the good work.

The same may be said for the University which celebrates its one hundredth anniversary this year. Some recognition of this event and our appreciation of Queen's should be considered by council. This is still one of our big industries.

Speaking of industries, the Aluminum Plant, which adds to one's amazement every time one visits it, is operating full capacity and is a welcome industry to the city and township in which it is located. It was pleasant news to learn of the decision of the Canadian Industries Company Limited to locate their Nylon Plant in Kingston township adjacent to the city. Both of these industries while actually not located in the city are and will be directly beneficial to the city as well as the township. It is confidently expected that other stable and substantial industries will be attracted to this neighborhood. The Industries committee of the Chamber of Commerce should be strengthened in this respect.

The addition of new industries, the enlargement of the Locomotive Works, the building of military camps and the general prosperity of the city have caused a serious housing shortage. Over one hundred new houses were built in 1940 and the indications are that equally as many if not more will be erected in 1941. There is still a dearth of accommodation especially of houses in the low rental or cost basis. A committee to study and act in this matter should be appointed with the least possible delay.

The general prosperity, increased demand for labour and war enlistments have caused the relief rolls to be reduced to unemployables and dependents. The total cost of relief for the year 1940 was approximately $60,000.00 of which $12,000.00 was borne by the City of Kingston. It must be pointed out that the department administering relief also supervises indigent hospitalization, investigates Mothers' Allowances and Old Age Pension applications and Children's Aid Society cases. Consideration should be given to the reorganization of this department in view of existing circumstances.

The House of Refuge, while administered from endowment funds, presents a problem in many respects. The earnings from endowments have decreased and alterations, renovations and improvements should be made to the building. The Board of Management has discussed a proposal of closing the Home and boarding out the inmates. There are many obstacles to be overcome in that proposal and some advantages. There is no provision for types of cases that need nursing care and are not entirely hospital cases. The members of the Board feel that their numbers should be increased to at least five instead of the present three.

The Board of Health presents to Council still many more problems. Since reorganizing the Health Department the amount of work that has accumulated and the additional duties that must be done have increased the value of this department to the citizens or have drawn attention to matters of health that were unknown to the public previously. The

Medical Officer of Health believes that all Public Health administration should be centralized and sufficient staff be appointed to carry out a health program that would be a credit to Kingston and a model for other centres. This would include the school nurses and the public health nurses. The 1940 Board has asked for specific detailed proposals which will be presented this year. Instructions have likewise been issued to employ a competent sanitary inspector to fill the present vacancy.

It is no secret that Kingston is experiencing a building boom probably the greatest in its history. Two years ago a building by-law was passed by council and provision was made for charging certain fees according to the building code. Many complaints against this by-law have been received and I have repeatedly asked that representations be made by those in the building or contracting business to the committee on Administration and Legislation. So far as I know no representations have been made except privately and that has to do with inferior materials and faulty construction by some who should perhaps be watched. This leads to the appointment of a building inspector to which the builders and citizens apparently are entitled.

One of the greatest problems that confronts the Traffic and Safety Committee in conjunction with the Police Department and in many cases the Board of Works is that of traffic and parking on the streets of Kingston. These committees have endeavoured to find a solution, but while much progress has been made conditions are far from perfect. It has been suggested that a traffic expert be engaged to make a report and offer a solution.

To the Police Department falls the responsibility of traffic control and regulation. Many have been the suggestions to educate the public but somehow or other all the public will not be educated. The by-laws prohibit certain things, the rules of the road do not apply and courtesy is only for the other fellow. Therefore the department charged with dealing with infractions of the law puts a ticket on the offender's car or takes other action. The former penalty for infractions was usually $1.00 and costs which amounted to $2.00, total $3.00. Due to the appointment of a Justice of the Peace for traffic cases a ticket system has been inaugurated, whereby the ticket holder is privileged to pay $1.00 without costs upon reporting at the Police Station or of pleading his case in court. In the latter case if found guilty costs are added.

Due to present day circumstances, increased activity in the city, expanding areas, increased population and many other conditions, council should be prepared to anticipate a request from the Police Commission for an increase in the force and more automotive equipment. Be assured that questions relating to the Police Department will receive the closest attention by all three members of the Commission and any matter in the public interest will be passed on to you.

For many years a recommendation to install a stop light at the corner of Victoria and Princess Streets has not been acted upon. The need for this light increases year by year. Let us correct this hazard this year.

While it is our desire and our duty to curtail capital and other expenditures it is also our duty from a long viewpoint as an economic measure to keep our properties and our streets in a good state of repair. Owners of houses built in areas where the streets are not suitable to travel upon, where services are needed, should not be penalized where the need is shown. Broken walks, curbs and pavements should be repaired promptly. Essentials should be maintained. There is some work which is considered essential to be done to the Public Library. If these things are necessary by all means let us do them.

The Board of Works has a large area to cover and a tremendous responsibility to get things done this year. Labour is not as plentiful as it was and some materials are uncertain of prompt delivery. The new snow loader has arrived but please do not pray for snow in order to demonstrate its usefulness.

Garbage collection is administered by the Engineer through the Board of Works. The units are running smoothly and everything seems to be in order except a number of receptacles or the absence of them. This is one of the duties of the new sanitary inspector.

The Fire Department is still functioning at a moment's notice within the municipality and in other areas by agreement. Owing to disputes concerning responsibility for payment of accounts and the refusal of townships and others to pay for the use of our fire fighting equipment, including men, it was decided last year that no piece or pieces of the city's equipment would be permitted to leave the city except upon authorized agreement between the parties concerned. Adjacent areas have been given the opportunity to enter into such agreements. A number of these are on file.

The Parks Committee is trying an experiment this year in conducting one supervised central rink for the whole city. Everything is ready but the ice. It should soon be time now to start flooding.

Late in the past year a long needed step was taken—that of removing rails on Princess, King and Ontario Streets. Bad weather intervened but a considerable portion of the job has been done. I believe it would be good business to clean up this whole situation and make a good job of the fill or replacement to give some semblance of permanency.

The Board of Education suffered a severe loss through fire in Macdonald School. Already there had been some apprehension regarding accommodation for increased attendance but a revision of time schedules in Central School and other adjustments provided the desired teaching hours, and although inconvenience was felt at first the situation seems to be under control. The insurance money was paid to the Board and has been turned over to the Corporation to be returned when required.

The Public Utilities Commission likewise has co-operated splendidly with the city and although the water and gas profits may be smaller than formerly it is felt that that mutual trust and co-operation will still continue. The Commission feels that the addition of a new supply or distributing station would improve the electric service in the west end of the city. A site was selected at the corner of Brock and Macdonnell Streets. Opposition arose to using this site for such a purpose and Hydro engineers are to make a report on the whole scheme. If it is shown that the proposal is necessary and the location is required to be as stated suitable arrangements can be made to carry out the project.

Coming now to the Finance Committee, I should like to give you some of the items with which it deals. First of all may I repeat what I said in an advertisement in the Whig-Standard "That from the present outlook the tax rate can be reduced another two mills without sacrificing essentials."

While the Whig-Standard called this a vote-catching scheme or some such phrase, the following figures obtained from the Treasury Department will set forth the sincerity of purpose and the truth of the fact of that statement:

Assessment

Assessment liable for all rates	
1940 assessment for 1941	$18,666,714.00
1939 assessment for 1940	17,950,855.00
Increase for year 1941	$ 715,859.00

Made up as follows:—

Expiry of By-law Exemptions	$ 515,875.00
New Buildings, Alterations, etc.	199,984.00
Total	$ 715,859.00

Funded Indebtedness.

During the past year the outstanding Debenture Debt was reduced by $219,883.00. Retirement of these debentures means a reduction in the debt carrying charges affecting the general tax rate of approximately $27,000.00. These two items (increased assessment and reduction in debt charges) alone are well over 2½ mills. If the provincial government continues to pay 1 mill, the Public Utilities turns over one-half of last year's amount, the expected surplus on 1940 operations, and an increase in revenue materializes, a picture of 4 mills presents itself. I think that my statement at that time was, to say the least, conservative.

Taxes.

An energetic policy of tax-collection coupled with a betterment in local conditions has produced very favourable results:

Total current taxes collected during year	$705,203.00
Total arrears collected	74,072.00
Total tax collections as a percentage of the levy for the year 1940	103.3%
Percentage of current tax collection	91.4%
Percentage of arrears collected	55.5%
Total arrears January 1st, 1941, including 1940 taxes	$140,489.00
Total arrears January 1st, 1940, including 1939 taxes	$166,406.00

Licences collected during 1940 in excess of $17,000, an increase of $1,500.00 over the estimated receipts for the year from this source.

Prepayment of Taxes.

Last year for the first time the taxpayers were given the opportunity to purchase tax-prepayment certificates. The plan was well received, $131,700 of certificates having been sold. This plan enables the city to meet heavy debt charges at the commencement of the year and also affords the taxpayer a substantial saving.

The plan is again being offered the taxpayers this year and it is expected that it will be even more successful. Over $25,000.00 sold to date.

The population as gathered by the assessor during his rounds last spring and summer is given as 27,923, an increase of 2,131 over the previous year. This figure has doubtless been increased since the assessor completed his field work. It has been estimated that there are 35,000 people now residing in Kingston.

A few years ago there was a tax which was called a nuisance tax but which few really objected to pay. As a war measure it has been suggested that the Amusement Tax might be restored for the benefit of the municipality. I mention this not knowing what it is worth if anything.

Many calls are made upon all of us to aid in paying for war costs. May I stress the need of voluntary action in purchasing War Savings Stamps and Certificates. The standard for Kingston is high but if it can be done voluntarily there need be no question of compulsion. We save money by buying these certificates and the government increases its revenue.

Still another call I should like you to consider. On Friday I received a letter from Kingston-on-Thames intimating that assistance for the many bomb sufferers there would be extremely welcome. Three citizens of our own city met in the Mayor's office and decided to recommend that the City of Kingston, Ontario, open a subscription list for the relief of citizens in Kingston-on Thames, England. This I feel is one of the things we are called upon to do and with the approval of this council an organization will be set up to work out details towards this end.

May I too commend to your attention and that of the citiens of Kingston the appeal for funds sponsored by the Greeks of this city for their countrymen in Greece.

There are many more matters which will be brought to your attention as the year progresses. I have endeavoured to give you an insight into the more important phases of city government in which council gives the lead and appeal to you to do your part to make the year 1941 a successful one for all of us.

Ald. Boyd presented report No. 16 from the Committee on Finance and Accounts as follows:—

Kingston, February 26th, 1941.

To the Mayor and Members of the City Council:

Gentlemen,—The Committee on Finance and Accounts begs leave to report and recommend as follows:

1. That under the powers granted by the Public Utilities Act, and other Acts and Court decisions, the Corporation affirms its right to the profits of the Waterworks System now administered by the local Public Utilities Commission, and that, by virtue of the said rights and powers and without prejudice to its legal position, the Corporation hereby allocates the 1940 profits of the Water Department of approximately $25,000.00 in the following manner:

$15,000.00 to the Corporation and the balance of approximately $10,000.00 to be retained by the Utilities Commission.

That in view of the present financial position of the Gas Department, the Corporation hereby recommends that the entire profits of the Gas Department for the year 1940 be retained by the Public Utilities Commission.

That beginning in 1941, the Public Utilities Commission render financial statements quarterly to the City Treasurer.

That a copy of the above resolution be forwarded to the Public Utilities Commission with the request that the said sum of $15,000.00 be now designated as payable to the Corporation.

2. Your committee recommends that a rate of 35.5 mills on the dollar be levied on this year's ordinary assessment and that a rate of 70/100 of a mill on the dollar for the collection and disposal of garbage be levied on the assessment liable thereto.

After making full provision for all expenditures applicable to the year 1940, including the purchase price of the Right-of-way from the Bath Road to the Front Road amounting to $15,000.00, there was a deficit of $2,841.92 on Current Account and $93.46 on the Garbage Collection Levy for the year 1940.

In the following pages we have endeavoured to set out clearly in schedule form and by brief explanations, the principal factors affecting the 1941 tax rate.

REVENUES OTHER THAN TAXES—

COMMITTEE APPROPRIATIONS—

Finance and Accounts Administration:

Reductions in administrative costs are offset chiefly by the necessity of providing for the completion of street rail removal.

Board of Works:

No increase in the total requirements of this department is anticipated.

Fire and Light:

The increase in requirements of this department is mainly for equipment maintenance.

Traffic and Safety:

Included in this appropriation is provision for additional traffic lights.

Board of Health:

A second public health nurse has been appointed, and the increase in estimates provides also for the tuberculosis after-care.

Parks:

The estimate of $1,400.00 for the Soldiers' Civic Recreation Centre is offset by a revenue estimate of the same amount.

Police Commission:

In keeping with the expanding needs of the City, provision has been made for four additional constables, and for improvement of equipment.

Social Welfare:

The staff of this department will be reduced from an average of 6 employees in 1940, to 4 employees for 1941, effecting a substantial saving in administrative costs.

Direct relief expenditures of 1940 totalled $61,886.20, of which the City's share was $12,596.26. The maximum total expenditure for 1941 is estimated at $30,000.00, of which the City's share is expected to be $7,500.00.

PROVISION FOR REMISSIONS, EXEMPTIONS, REFUNDS AND UNCOLLECTABLE TAXES

Expiration of certain fixed assessments in 1940 accounts for a reduction of approximately $9,000.00 in this item. Improvement in tax collections has permitted a reduction of about $5,000.00 in the 1941 appropriation for uncollectable taxes.

REPORT OF MILK CONSUMERS' REPRESENTATIVE

Kingston, March 6th, 1941.

Alderman C. A. Curtis,
Chairman Committee on Administration and Legislation.

Dear Sir:—

At the request of your committee I attended the meeting of the Milk Control Board in Toronto on March the 3rd, when the question of a price increase to the milk producer was under arbitration. The Producers were represented by Mr. Vair, Mr. Colin Rogers and Mr. McCoy and the representative of the Ontario Producers Association; the Distributors were represented by Mr. Polk, Mr. Wilmot, Mr. Scott from the Ontario Distributors Association, and Mr. Kenneth Moncrieff of Hemlock Park Dairies, Kingston, the regional representative of the Distributors Association. All the members of the Board were present, together with their secretaries. The writer represented the Consumers.

Mr. Vair, representing the producers, presented a brief outlining the reasons why an increase of forty cents a hundred pounds was asked for. He cited increased cost of equipment both used on the farm and in the dairy, increased rent, increased wages and scarcity of experienced farm help. The distributors made it very clear that the present rates were quite satisfactory insofar as they were concerned. Mr. Rogers, for the producers, endeavoured to show that 65% of the producers attended their recent meeting but finally admitted that the 65% represented only members of his association and not the producers in general. Mr. Wilmot drew to the attention of the Board the fact that the producers at their meeting were agreeable to the rate of $2.20 per hundred pounds, although they did not go on record, as one member was opposed to this rate and definite action was deferred. The writer endeavoured to show to the Board that there was an abundance of milk for this district, in fact more than was required for Kingston for domestic purposes. And further, that quite a few of the producers had indicated their willingness to continue their rate at $1.92 and that there was no demand from distributors for an increase. It was pointed out that the producers in Gananoque, although at the present time receiving only $1.61, were prepared to accept a new rate of less than $2.00. After some discussion the Board asked to be left alone with the producers. The distributors and consumers' representatives retired. After an interval the distributors were called back to the conference but the consumers' representative was not recalled for upwards of an hour when a rather weak regret was expressed that he had been forgotten and this despite the fact that during the interval of an hour representatives of the Board were in the room where the consumers' representative was in waiting. On re-entering the conference room he was advised that an agreement had been reached of twelve cents for quarts but no mention was made of the pint rate until enquiry was made, then the information was forthcoming that the rate was seven cents. This the consumers' representative objected to on the ground that they were penalizing those of small purchases, but the members of the Board interjected the remark that owing to the extensive use of refrigerating machines few pints were purchased. Members of the Board made it abundantly clear that the above-mentioned rates would prevail in Kingston. The cream rates were to be taken up later.

The last question under consideration was the date that the new rates would become effective. Distributors wanted the first of April but were willing to have it made the 15th of March. The Board, however, agreed with the producers that Sunday, March the 9th, should be the starting date. The anxiety to push this date back as far as possible was to limit the time over which the consumers could purchase tickets in advance of the new rates. The Board appeared to be as anxious to set the 9th as the producers were. Mr. Wilmot speaking on behalf of the distributors expressed a willingness to sell anybody one hundred dollars' worth of tickets if they so desired. At this point the writer considered the conference was at an end and when somebody suggested that what had taken place should not be made public the consumers' representative took a decided opposite stand and indicated very strongly to the Board that as the consumers' representative he was not prepared to negotiate behind closed doors. At this point the conference broke up.

Throughout the whole proceedings the distributors made it abundantly clear to the Board that they were opposed to any increase and they saw no justification for it, and when asked to sign the contract said they had no authority to sign.

HUGH C. NICKLE.
